SCREEN SHARING IN GOOGLE MEETS

(On your computer)

1. Join or start a meeting on Google Meet.
2. Click the **Present** icon (a rectangle with an upward-pointing arrow
3. Choose what you want to share from the prompt **(Chrome Tab**, **Window or Your Entire Screen)**
4. Click on the specific thumbnail preview of the tab, window, or screen you want to show, and then click **Share**.
5. To stop sharing, click **Stop Presenting** on the meeting screen or the notification banner.

SCREEN SHARING TO THE TV

(From your computer)

For Windows PCs

1. Press the **Windows Logo Key + K** on your keyboard.
2. Select your wireless display or smart TV from the list of available devices that pops up (labrador/ragdoll)

For Apple (Mac, iPhone, iPad)

1. Check that your smart TV supports **AirPlay** or that you have an **Apple TV** connected.
2. Swipe down from the top right corner of your iPhone to open the **Control Center**.
3. Tap the **Screen Mirroring** icon (two overlapping rectangles) and select your TV from the list.
